

VitalSource Studio

Give students a learning experience, not a text.

VitalSource Studio is an **easy to use, digital content authoring tool** that allows the creation of digital-first, fully-responsive and accessible content that **meets student expectations of modern, engaging learning material**.

Why VitalSource Studio?

- Create **institution-branded, innovative content** and deliver it through Bookshelf® for **a unified reading, and study experience**.
- Students expect more than static content. **Transform flat content** into interactive, multimedia, responsive material that can be **accessed online and 100% offline 24/7** from a range of devices to support new study methods.
- **Accessibility matters**. Give students of all abilities the tools to get the most out of their content.

“VitalSource Studio provides an intuitive drag and drop interface prebuilt with a set of powerful responsive modules that are accurate to render and fun to use. I was able to repurpose a 28-page PDF case study and add new interactive enhancements. Once published the content, that included photos, videos and custom quizzes worked seamlessly on multiple devices.”

Cale Rogers, Colorado State University

How do we help your content hit the mark?

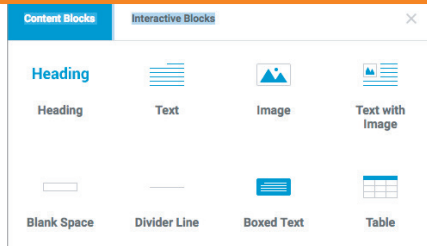

- Content creation in VitalSource Studio is easy and requires **no coding experience**. Publish content in the EPUB3 format to Bookshelf with a single click.
- Built-in support for image alt text, closed captions, and transcripts makes it easy for content authors to create **truly accessible content**.
- Upload videos, add audio, slideshows, quizzes and in-text assessment to revitalise existing content or create truly interactive content from the start.
